The document ‘Keeping Children Safe in Education 2025: Statutory guidance for schools and colleges (part 1)’ MUST be read by all staff in conjunction with this policy and is kept as Appendix A to this document.

1. INTRODUCTION

Schools and their staff form part of the wider safeguarding system for children. Everyone who comes into contact with children and their families and carers has a role to play in safeguarding children. In order to fulfil this responsibility effectively, all professionals should make sure their approach is child-centred. This means that they should consider, at all times, what is in the best interests of the child.

(Keeping Children Safe in Education – DfE, 2025)

This Safeguarding and Child Protection policy is for all staff, parents, governors, volunteers and the wider school community. It forms part of the safeguarding arrangements for our school and should be read in conjunction with the following:

- [Keeping Children Safe in Education \(DfE, 2025\)](#)
- the school Safer Recruitment and Selection Policy/Procedures;
- the school IT Acceptable Use Policy, E-Safety and Social Networking policy;
- the school Behaviour policy;
- the school Staff Behaviour policy (called Staff Code of Conduct, including Low-Level Concerns Policy);
- the safeguarding response to children missing from education
- the role of the designated safeguarding lead (Annex C of KCI5E)

Safeguarding and promoting the welfare of children (*everyone under the age of 18*) is defined in Keeping Children Safe in Education as:

- providing help and support to meet the needs of children as soon as problems emerge
- protecting children from maltreatment, whether that is within or outside the home, including online
- preventing the impairment of children’s mental and physical health or development
- ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- taking action to enable all children to have the best outcomes

Our school has a whole-school approach to safeguarding, which ensures that keeping children safe is at the heart of everything we do and underpins all systems, processes and policies. It is important that our values are understood and shared by all children, staff, parents / carers, governors and the wider school community. We believe that, only by working in partnership, can we truly keep children safe.

2. SCHOOL ETHOS

We recognise that for our pupils, high self-esteem, confidence, supportive friends and clear lines of communication with a trusted adult helps to prevent abuse. Our school is committed to keeping children safe and aims to:

- create an environment in the school which encourages children to develop a positive self-image, regardless of race, language, gender, religion, culture or home background.
- create a culture of vigilance where the welfare of our pupils is promoted and where timely and appropriate safeguarding action is taken.
- work with parents to build their understanding of, and commitment to, the welfare of all our children.
- help children to establish and sustain satisfying relationships within their families, with peers, and with other adults.
- encourage children to develop a sense of autonomy and independence.
- encourage children to have the self-confidence and the vocabulary to resist inappropriate approaches.
- establish, maintain and promote a culture where pupils feel safe and secure, are encouraged to talk and are listened to.
- ensure that pupils know that there are adults within the school who they can approach if they are worried or are in difficulty.
- ensure pupils receive the right help at the right time to address risks and prevent issues escalating.
- include in the curriculum activities and opportunities for PSHE which equip pupils with the skills they need to stay safe from abuse and to develop healthy and safe relationships. This will include the use of the PSHE scheme, Jigsaw.
- include in the curriculum material which will help pupils develop realistic attitudes to the responsibilities of adult life, particularly with regard to childcare and parenting skills.
- develop and implement procedures for identifying and reporting cases (or suspected cases) of child abuse.
- support children who have either been abused or are in need.
- make staff, parents, volunteers and governors aware of (and have a clear understanding of) the school's responsibilities, policies and practice for safeguarding children and ensure that, wherever possible, every effort is made to establish open and honest effective working relationships with parents and colleagues from partner agencies.
- protect children from harm and ensure that they are taught in a way that is consistent with the law and our values and to promote respect for all others.
- facilitate understanding of wider issues within the context of learning about the values on which our society is founded and our system of democratic government.
- provide a curriculum which actively promotes the fundamental British values of democracy, the rule of law, individual liberty and mutual respect and tolerance of those with different faiths and beliefs.
- promote tolerance of and respect for people of all faiths (or those of no faith), races, genders, ages, disability and sexual orientations.

The school will not tolerate bullying, harassment, discrimination or victimisation. Any kind of bullying is unacceptable. There is a separate Anti-bullying and Anti-discrimination Policy, which is available via the school's website or from the School Office.

3. EARLY YEARS FOUNDATION STAGE

This Policy applies to the school's provision for the Early Years Foundation Stage (EYFS). Gemma Jackson (DSL) and Joan Thomas (DDSL) are responsible for Safeguarding within the EYFS.

The school's policy on the use of 'Pre-Prep Electronic Devices with Imaging and Sharing Capabilities' in the setting is incorporated into the Staff Code of Conduct which applies to all staff throughout the school. These states:

In the Early Years Setting staff personal use of electronic devices with imaging and sharing capabilities are strictly forbidden. Permission must be requested from the Head of Pre-Prep for mobile phones to be used during contact time with pupils. Children must be protected from any images being used inappropriately.

Providers must train all staff to understand their Safeguarding and Child Protection policy and procedures, and ensure that all staff have up to date knowledge of safeguarding issues. Training made available by the provider must enable staff to identify signs of possible abuse and neglect at the earliest opportunity, and to respond in a timely and appropriate way. (EYFS Statutory Framework 3.6).

The Headteacher will notify OFSTED within 14 days of any allegations of serious harm or abuse by any person living, working or looking after children at the premises (whether the allegations relate to harm or abuse committed on the premises or elsewhere).

4. CURRICULUM

We embed key elements of child protection into our PSHE lessons and assemblies, so that children can develop understanding of why and how to keep safe, including internet safety.

We create within the school a culture of value and respect for the individual. We ensure that this is carried out in a way that is appropriate for the ages and stages of our children.

We include in our curriculum guidance to enable children to adjust their behaviours in order to reduce risks and build resilience, including radicalisation with particular attention to the safe use of electronic equipment and the internet.

We use appropriate IT filtering systems which minimises unsuitable or offensive web content and keeps children safe when accessing the internet at school.

The school will check that any visiting speakers who might fall within the scope of the Prevent duty, whether invited by staff or pupils, are suitable. Visiting speakers will be appropriately supervised.

We provide additional opportunities for children to express their opinions and concerns through 'Pupil Voice', for example the school council, eco council and secure post boxes for them to place notes if they do not wish to approach a member of staff direct.

Where appropriate, and with parent's permission, we arrange for children to have access to a trained counsellor.

The school will actively promote online safety on its website and signpost staff, parents and children to information that will help keep children safe online. This will also be achieved via dedicated training sessions for children and separate sessions for parents. We have additional information for parents on the school website. We also participate in the annual Safer Internet Day.

We have a child friendly version of our Safeguarding and Child Protection Policy and a separate Anti-bullying Policy which use age-appropriate language.

5. STATUTORY FRAMEWORK

There is government guidance set out in [Working Together to Safeguard Children \(DfE, 2026\)](#) on how agencies must work in partnership to keep children safe. This guidance places a shared and equal duty on three Safeguarding Partners (the Local Authority, Police and Health) to work together to safeguard and promote the welfare of all children in their area under multi-agency safeguarding arrangements. These arrangements sit under the [Essex Safeguarding Children Board \(ESCB\)](#). In Essex, the statutory partners are Essex County Council, Essex Police and three NHS Integrated Care Boards covering the county.

Section 157 of the Education Act 2002 places a statutory responsibility on the governing body to have policies and procedures in place that safeguard and promote the welfare of children who are pupils of the school.

In addition to national statutory guidance, in Essex, all professionals must work in accordance with the [SET Procedures](#). Our school also works in accordance with the following legislation and guidance (*this is not an exhaustive list*):

[Keeping Children Safe in Education \(DfE, 2025\)](#)

[Working Together to Safeguard Children \(DfE, 2026\)](#)

[Working Together to Improve Attendance \(DfE 2024\)](#)

[Education Act \(2002\)](#)

[Essex Effective Support](#)

[Counter-Terrorism and Security Act \(HMG, 2015\)](#)

[Serious Crime Act 2015](#) (Home Office, 2015)

[Children and Social Work Act \(2017\)](#)

[Children Missing Education - statutory guidance for local authorities \(DfE, 2016\)](#)
[Sexual Offences Act \(2003\)](#)
[Information Sharing \(DfE 2024\)](#)
[Education \(Pupil Registration\) Regulations 2006](#)
[Information sharing advice for safeguarding practitioners \(HMG, 2018\)](#)
[Data Protection Act \(2018\)](#)
[What to do if you're worried a child is being abused \(HMG, 2015\)](#)
[Children Act \(1989\) https://www.legislation.gov.uk/ukpga/1989/41/contents](https://www.legislation.gov.uk/ukpga/1989/41/contents)
[Children Act \(2004\) https://www.legislation.gov.uk/ukpga/2004/31/contents](https://www.legislation.gov.uk/ukpga/2004/31/contents)

[Female Genital Mutilation Act 2003 \(S. 74 - Serious Crime Act 2015\)](#)
[Meeting digital and technology standards in schools and colleges \(DfE 2025\)](#)
[Generative AI: product safety expectations \(DfE 2025\)](#)
[Relationship Education, Relationships and Sex Education \(RSE\) and Health Education \(DfE, 2025\)](#)
[Preventing youth violence and gang involvement \(Home Office, 2015\)](#)
[Criminal Exploitation of children and vulnerable adult - county lines guidance \(Home Office, 2018\)](#)
[Teaching on-line safety in schools \(DfE, 2023\)](#)
[Education Access Team CME / Home Education policy and practice \(ECC, 2023\)](#)
[Behaviour in Schools \(DfE 2024\)](#)
[Restrictive interventions, including use of reasonable force \(DfE 2026\)](#)
[School suspensions and permanent exclusion \(DfE 2024\)](#)
[Searching, screening and confiscation \(DfE 2022\)](#)
[Let's talk: reducing the risk of suicide \(ESCB 2021\)](#)
[Understanding and supporting behaviour and appendices \(ECC 2025\)](#)
[Filtering and Monitoring Standards \(DfE, 2024\)](#)
[Domestic Abuse Act \(2021\)](#)
[Victims and Prisoners Act \(2024\)](#)
[Education Access Team CME / Home Education policy and practice \(ECC, 2023\)](#)

6. ROLES AND RESPONSIBILITIES

All adults working with, or on behalf of children, have a responsibility to protect them and to provide a safe environment in which they can learn and achieve their full potential. However, there are key people within schools and the Local Authority and other agencies who have specific responsibilities under child protection procedures. The names of those in our school with these specific responsibilities (the designated safeguarding lead; Ms Gemma Jackson and the deputy designated safeguarding lead; Mrs Joan Thomas) are shown on the cover sheet of this document. However, we are clear that safeguarding is everyone's responsibility and that everyone who comes into contact with children has a role to play.

The Governing Body

The governing body has overall responsibility for safeguarding in our school. It ensures that the policies, procedures and training in our school are effective and comply with

the law at all times. It ensures that all required policies relating to safeguarding are in place, that the Child Protection Policy reflects statutory and local guidance and that it is reviewed at least annually.

The governor for safeguarding arrangements is named on the front cover of this document. This governor takes strategic responsibility at governing body level for safeguarding arrangements in our school and a 'whole-school approach' to this. The governing body ensures there is a named designated safeguarding lead and at least one deputy safeguarding lead in place (the designated safeguarding lead; Ms Gemma Jackson and the deputy designated safeguarding lead; Mrs Joan Thomas).

The governing body ensures the school engages with statutory safeguarding partners and contributes to multi-agency working, in line with statutory and local guidance. It ensures that information is shared and stored appropriately and in accordance with statutory requirements.

The governing body ensures that all adults in our school (including governors / trustees) who work with children undergo safeguarding and child protection training at induction as appropriate and that it is regularly updated. All staff members receive regular safeguarding and child protection updates, at least annually, to provide them with the relevant skills and knowledge to keep our children safe.

The governing body ensures our pupils are taught about safeguarding (including online safety) through teaching and learning opportunities as part of a broad and balanced curriculum. We teach our children how to keep themselves safe and we work in accordance with statutory guidance to help children recognise and respond to risk and to prevent them from coming to harm. We comply with government regulations which make the subjects of Relationships Education (for primary age pupils) and Relationships and Sex Education (for secondary age pupils) and Health Education (for all pupils in state-funded schools) mandatory.

The governing body has specific duties around online safety and ensures we have appropriate filtering and monitoring systems in place to keep our children safe online.

The governing body is responsible for ensuring that adults in our school are suitable – this is done by:

- ensuring we have in place safer recruitment procedures that help to deter, reject or identify people who might abuse children
- ensuring we meet statutory responsibilities to check adults working with children and have recruitment and selection procedures in place (see the school's 'Safer Recruitment' policy for further information)
- ensuring volunteers are appropriately supervised in school
- online safety (including strategic oversight of filtering and monitoring systems to support this)

The Headteacher

The Teachers' Standards 2012 state that teachers (which includes headteachers) should safeguard children's wellbeing and maintain public trust in the teaching profession as part of their professional duties. Our Headteacher works in accordance with all statutory requirements for safeguarding and is responsible for ensuring that safeguarding policies and procedures adopted by the governing body are followed by all staff.

The Designated Safeguarding Lead (and Deputy)

The designated safeguarding lead in school has ultimate lead responsibility for safeguarding and child protection. Their role includes managing child protection referrals, working with other agencies, ensuring all staff are appropriately trained, leading on online safety (including filtering and monitoring standards) and raising awareness of all safeguarding and child protection policies and procedures. They ensure that everyone in school (including temporary staff, volunteers and contractors) is aware of these procedures and that they are followed at all times. They act as a source of advice and support for other staff (on child protection matters) and ensure that any referrals to Essex Children's Social Care (Children and Families Hub) are made in a timely way in accordance with current SET procedures. They work with the local authority and the ESCB as required and ensure that information is shared appropriately.

The deputy designated safeguarding lead are trained to the same standard as the designated safeguarding lead. If for any reason the designated safeguarding lead is unavailable, the deputy designated safeguarding lead/leads is able to act in their absence.

All School Staff

Everyone in our school has a responsibility to provide a safe learning environment where our children can learn. All staff are aware of the types of abuse and safeguarding issues that can put children at risk of harm, so we are able to identify children who may be in need of help or protection. We understand that behaviours linked to issues such as drug taking and/or alcohol misuse, missing education and consensual/non-consensual sharing of nudes and semi-nude images can be signs that children are at risk. In addition, we recognise that any child may benefit from additional help and all staff members are aware of the local early help process and our role in it.

All staff members are aware of and follow school safeguarding processes (as set out in this policy) and are aware of how to make a referral to Social Care, if there is a need to do so. Staff understand that, if they have any concerns about a child's welfare, they must act on them immediately and speak with the designated safeguarding lead (or deputy) – we do not assume that others have taken action.

Our staff understand that children may not always feel able or know how to tell someone that they are being abused. This may be because they are embarrassed, scared or do not recognise they are experiencing abuse, either at home or out in the community. We understand there are many factors which may impact on our children's welfare and safety and we also understand safeguarding in the wider context (contextual safeguarding). We recognise that abuse, neglect and safeguarding issues rarely occur in isolation and that, in most cases, multiple issues will overlap.

Our staff will always reassure children who report abuse that they are taken seriously and that they will be supported and kept safe. We will never make a child feel ashamed for reporting abuse, nor make them feel they are causing a problem.

7. TYPES OF ABUSE / SPECIFIC SAFEGUARDING ISSUES

Keeping Children Safe in Education describes abuse as 'a form of maltreatment of a child'. It sets out that:

"Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent

harm. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or another child or children”

The guidance refers to four main categories of abuse:

- Physical: a form of abuse causing physical harm to a child – this includes where an adult fabricates or deliberately induces illness in a child
- Emotional: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child’s emotional development
- Sexual: forcing or enticing a child to take part in sexual activities (through actual physical or online contact)
- Neglect: the persistent failure to meet a child’s basic physical and/or psychological needs, likely to result in the serious impairment of the child’s health or development

In addition, Annex B of Keeping Children Safe in Education contains important information about specific forms of abuse and safeguarding issues. Some of these, and our approach to them, are explained here:

Child criminal exploitation (CCE) and Child Sexual Exploitation (CSE)

Both CCE and CSE are forms of abuse that occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into taking part in sexual or criminal activity, in exchange for something the victim needs or wants, and/or for the financial advantage or increased status of the perpetrator or facilitator and/or through violence or the threat of violence. CSE and CCE can affect children, both male and female and can include children who have been moved (commonly referred to as trafficking) for the purpose of exploitation.

Some specific forms of CCE can include children being forced or manipulated into transporting drugs or money through county lines, working in cannabis factories, shoplifting or pickpocketing. They can also be forced or manipulated into committing vehicle crime or threatening/committing serious violence to others.

Child Sexual Exploitation (CSE) is a form of child abuse, which can happen to boys and girls from any background or community. It may occur over time or be a one-off occurrence. In Essex, the definition of Child Sexual Exploitation (CSE) from the Department of Education (DfE, 2017) has been adopted:

"Child Sexual Exploitation is a form of child sexual abuse. It occurs when an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Child sexual exploitation does not always involve physical contact; it can also occur through the use of technology".

It is understood that a significant number of children who are victims of CSE go missing from home, care and education at some point. Our school is alert to the signs and indicators of a child becoming at risk of, or subject to, CSE and will take appropriate action to respond to any concerns. The designated safeguarding lead will lead on

these issues and work with other agencies as appropriate.

Child on child abuse (including sexualised behaviours)

Child on child abuse can manifest itself in many ways. This may include bullying (including cyber bullying), physical abuse, harmful sexual behaviours, gender-related abuse, 'up-skirting', 'sexting' or initiation / hazing type violence and rituals. We do not tolerate harmful behaviour of any kind in school and will take swift action to intervene where this occurs, challenging inappropriate behaviours when they occur. We do not normalise abuse, and it is not tolerated in our setting. Our culture is very much one of kindness, compassion, hope, connection and belonging.

Any incidents of child-on-child abuse will be managed in the same way as any other child protection concern and we will follow the same procedures. We will seek advice and support from other agencies as necessary and ensure that appropriate agencies are involved when required.

Our school recognises that some children may abuse other children and that this may happen in school, or outside of it. We understand there are many factors which may lead a child to display abusive behaviours towards other children, and that these matters are sensitive and often complex. We recognise our school may be the only stable, secure and safe element in the lives of some children, particularly those who have experienced harm and trauma. We have a duty to safeguard all children and, whilst inappropriate behaviours will be challenged and addressed, it is in the context of providing appropriate support to all children in our school where harmful behaviour has occurred. We will, at all times, take a balanced and proportionate approach to risky or harmful behaviour.

We understand the barriers which may prevent a child from reporting abuse and work actively to remove these. We use lessons and assemblies to teach children about healthy, positive relationships, how to report concerns, and to help them understand, in an age-appropriate way, what abuse is. We aim to provide children with the language to report abuse and to tell a trusted adult if someone is behaving in a way that makes them feel uncomfortable. We will never make a child feel ashamed for reporting abuse, nor that they are creating a problem by doing so. We never assume, if abuse is not being reported, that it is not occurring in our school – we are vigilant to signs of abuse and promote a culture of safety and understanding.

We use lessons and assemblies to help children understand, in an age-appropriate way, what abuse is and we encourage them to tell a trusted adult if someone is behaving in a way that makes them feel uncomfortable. Our school understands the different gender issues that can be prevalent when dealing with child-on-child abuse. We will never make a child feel ashamed for reporting abuse, nor that they are creating a problem by doing so. For further information please refer to the school's Child on Child Harmful Sexual Behaviour policy, Anti bullying and Anti – Discrimination Policy and Behaviour and Discipline Policy.

Children who are absent from education

All children, regardless of their age, ability, aptitude and any special education needs they may have, are entitled to a full-time education. We recognise that good attendance begins with our school being somewhere our children want to be, and also that some children find it harder to attend school for a range of reasons. We will always

try to understand underlying reasons for absence and will work collaboratively with other partners to support children to attend school and to ensure that they receive the right help at the right time.

A child missing education is a potential indicator of abuse or neglect, and we follow the procedures for unauthorised absence and for children missing education. It is also recognised that, when not in school, children may be vulnerable to or exposed to other risks. We believe that early intervention to address absence from school is vital, so we work with parents/carers and other partners to keep children in school and remove any barriers to them accessing their education.

Parents should always inform us of the reason for any absence. Where this does not happen, we will attempt contact with parents (parents are required to provide at least two emergency contact numbers to the school, to enable us to communicate with someone if we need to). Where contact is not made, a referral may be made to another appropriate agency (Education Access Team, Social Care or Police). Our school must inform the local authority of any pupil who has been absent without school permission for a continuous period of 10 days or more.

We work in accordance with the Essex Protocol for children who go missing during the school day (see Appendix F), to ensure that there is an appropriate response to children who go missing.

Risk in the community (RIC)

RIC is the Essex partnership approach to tackling criminal and sexual exploitation of children and young people.

We understand that safeguarding incidents and behaviours can be associated with factors in the community, outside a child's home or our school. All staff are aware of 'contextual safeguarding' and we are therefore mindful of things in a child's life which may be a threat to their safety and / or welfare. We always consider relevant information when assessing any risk to a child and will share it with other agencies when appropriate, to support better understanding of a child and their family. This is to ensure that our children and families receive the right help at the right time and to help keep our children safe.

Domestic abuse

Domestic abuse can involve a wide range of behaviours and can include intimate partner violence, abuse by family members, teenage relationship abuse and child to parent abuse. We understand that anyone can be a victim of domestic abuse, and that it can take place inside or outside of the home.

Our school recognises that exposure to domestic abuse (either by witnessing or experiencing it) can have a serious, long-term emotional and psychological impact on children. We work with other key partners and we receive / share relevant information where there are concerns that domestic abuse may be an issue for a child or family or be placing a child at risk of harm.

As part of our safeguarding arrangements and our work with safeguarding partners, our school has signed up to [Operation Encompass](#). Operation Encompass is a national initiative which aims to provide support to children who have experienced domestic

abuse. It means the Police inform us if they have attended an incident of domestic abuse which involves a child on our roll, so that appropriate support can be put in place. Any information in relation to this will be held on the child's child protection file, as with any other safeguarding information.

Harmful sexual behaviour

We understand that children's sexual behaviours exist on a continuum, ranging from age-appropriate / developmental to inappropriate / problematic / abusive. We also understand that harmful sexual behaviour and child on child abuse can occur between children of any age and gender, either in person or online. We recognise that children who display harmful sexual behaviour may have experienced their own abuse and trauma, and we will support them accordingly.

Our school has a 'zero-tolerance' approach to harmful sexual behaviour of any kind, and any inappropriate behaviour is challenged and addressed. We work in accordance with all statutory guidance in relation to such behaviours and with other agencies as appropriate.

We seek to teach our pupils about healthy and respectful relationships, boundaries and consent, equality, the law and how to keep themselves safe (on and offline).

(Please refer to the school's Child on Child Harmful Sexual behaviour policy for further details on our arrangements for harmful sexual behaviour.)

Mental health

Positive mental health is the concern of the whole community and we recognise that our school plays a key part in this. Our school aims to develop the emotional wellbeing and resilience of all pupils and staff, as well as provide specific support for those with additional needs. We understand that there are risk factors which increase someone's vulnerability and protective factors that can promote or strengthen resiliency. The more risk factors present in an individual's life, the more protective factors or supportive interventions are required to counter-balance and promote further growth of resilience.

Our staff are aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. We understand that, where children have suffered abuse or other potentially traumatic adverse childhood experiences, this can have a lasting impact throughout childhood, adolescence and into adulthood. Where we have concerns, this may impact on mental health, we will seek advice and work with other agencies as appropriate to support a child and ensure they receive the help they need.

It is vital that we work in partnership with parents/carers to support the wellbeing of our pupils. We expect parents/carers, if they have any concerns about the wellbeing of their child, to share this with us, so we can ensure that appropriate support and interventions can be identified and implemented.

For further information about our approach to mental health this is available in our mental health policy.

Online safety

We recognise that our children are growing up in an increasingly complex world, living their lives on and offline. Whilst this presents many positive and exciting opportunities, we recognise it also presents challenges and risks, in the form of:

- content: being exposed to illegal, inappropriate or harmful material; for example, pornography, fake news, suicide, racist or radical and extremist views;
- contact: being subjected to harmful online interaction with other users; for example, peer to peer pressure, commercial advertising as well as adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes;
- conduct: personal online behaviour that increases the likelihood of, or causes, harm; for example, making, sending and receiving explicit images, or online bullying
- commerce: risks such as online gambling, inappropriate advertising, phishing and / or financial scams.

The school recognises that Artificial Intelligence (AI) is an emerging and rapidly developing technology which may be encountered by pupils both within and beyond the school environment. The school is committed to ensuring that any use of AI supports the safeguarding and promotes the welfare of pupils.

The school acknowledges that AI presents both educational opportunities and potential safeguarding risks. These include exposure to inappropriate or harmful content, the generation or dissemination of misleading information, reduced opportunities for independent learning, and risks associated with the sharing of personal data or online interactions facilitated by AI technologies.

In response to these risks, the school implements appropriate safeguarding procedures. Staff receive guidance on the safe and responsible use of AI and understand their duty to identify and respond to any concerns. The use of AI by pupils within school is appropriately supervised and monitored, and is carefully considered in relation to pupils' age, understanding, and stage of development.

Pupils are supported to develop an age-appropriate understanding of AI as part of the school's approach to online safety, enabling them to use such technologies critically, responsibly, and safely. The school makes clear that personal, sensitive, or identifiable information must not be entered into AI systems.

Any concerns relating to the use or misuse of AI, including those which may impact on pupil welfare, are managed in accordance with the school's safeguarding procedures and are reported without delay to the Designated Safeguarding Lead (DSL). Through these measures, the school seeks to ensure that the use of AI does not compromise the safety or wellbeing of pupils and is managed in a way that is consistent with the school's safeguarding responsibilities.

All staff in our school are aware of the risks to children online. We understand any child can be vulnerable online, and that their vulnerability can vary according to age, developmental stage and personal circumstances. We aim to equip all our pupils with the knowledge they need to use the internet and technology safely, and we want to work with parents to support them to keep their children safe online.

We have systems in school to filter information and block internet access to harmful

sites and inappropriate content. These systems are monitored and regularly reviewed to ensure they are effective, and all staff are trained in online safety and how to report concerns.

Further information about our approach to online safety is available in our IT Acceptable Use, e-Safety and Social Networking Policies.

Prevention of radicalisation

As of July 2015, the [Counter-Terrorism and Security Act \(HMG, 2015\)](#) placed a new duty on schools and other education providers. Under section 26 of the Act, schools are required, in the exercise of their functions, to have “due regard to the need to prevent people from being drawn into terrorism”. This duty is known as the Prevent duty.

The Prevent Duty requires schools to:

- teach a broad and balanced curriculum which promotes spiritual, moral, cultural, mental and physical development of pupils and prepares them for the opportunities, responsibilities and experiences of life and must promote community cohesion
- be safe spaces in which children / young people can understand and discuss sensitive topics, including terrorism and the extremist ideas that are part of terrorist ideology, and learn how to challenge these ideas
- be mindful of their existing duties to forbid political indoctrination and secure a balanced presentation of political issues.

Channel is a national programme which focuses on providing support at an early stage to people identified as vulnerable to being drawn into terrorism. If a child on roll at our school is referred to the Channel Panel, a representative from the school may be asked to attend the Channel panel to help with an assessment and support plan.

Our school operates in accordance with local procedures for PREVENT and with other agencies, sharing information and concerns as appropriate. Where we have concerns about extremism or radicalisation, we will seek advice from appropriate agencies and, if necessary, refer to the Police, Social Care and/or the Channel Panel.

Serious violence

All staff are aware of the risk factors and indicators which may signal that children are at risk from or involved with serious violent crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in well-being, or signs of assault or unexplained injuries. Unexplained gifts or new possessions could also indicate that a child has been approached by, or is involved with, individuals associated with criminal networks or gangs.

As with other safeguarding issues, we work with other relevant agencies to share information and address concerns, to help safeguard all children.

So-called ‘honour-based violence’ (including Female Genital Mutilation and forced marriage)

So-called 'honour'-based abuse (HBA) encompasses incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing. We understand that this form of abuse often involves a wider network of family or community pressure and can include multiple perpetrators.

Female Genital Mutilation (FGM) comprises all procedures involving partial or total removal of the external female genitalia or other injury to female genital organs. It is illegal in the UK and a form of child abuse.

As of October 2015, the Serious Crime Act 2015 (Home Office, 2015) introduced a duty on teachers (and other professionals) to notify the police of known cases of FGM where it appears to have been carried out on a girl under the age of 18. Our school operates in accordance with the statutory requirements relating to this issue, and in line with local safeguarding procedures.

A forced marriage is one entered into without the full consent of one or both parties. It is where violence, threats or other forms of coercion is used and is a crime. Our staff understand how to report concerns where this may be an issue.

8. RECOGNISING SIGNS OF ABUSE

All staff should be concerned if they observe a child with any of the following possible signs of abuse or neglect. Whilst these signs may not be evidence themselves, they may be a warning, particularly if a child is exhibiting several signs or a pattern emerges.

(There may be other reasons for a child showing such signs).

- any injury which is not typical of the bumps, scrapes or marks usually associated with an accidental injury.
- unexplained injuries on a regular basis.
- frequently has injuries (even where an apparently reasonable explanation is provided).
- gives confused or conflicting explanations about how injury/injuries were sustained.
- exhibits significant changes in behaviour, academic performance, attitude, demeanour, becomes withdrawn etc.
- indulges in, or talks about, sexual behaviour which is unusually or inappropriately explicit for their age/stage of development.
- has an indication of possible self-harm, for example recurrent cuts, scratches or other marks on the arm.
- has an indication of mental strain, for example stress, depression, lack of motivation which is out of character, extreme tiredness, uncharacteristic outbursts of anger, frequently over emotional.
- disclosures of an incident or incidents in which they may have been significantly harmed.
- any other cause to believe they may be suffering harm.

FGM (Female Genital Mutilation)

Possible signs that FGM may have taken place include long periods away from school, longer than usual time spent in the toilet, difficulty walking, sitting, standing or running, reluctance to undergo normal medical examinations, recurring urinary tract infections,

prolonged absences with a change in behaviour, change in manner/mode of dress, requiring to be excused from PE without support of GP, eating disorders, self-harming or suicide attempts, disclosure.

CSE (Child Sexual Exploitation)

Possible signs and vulnerabilities may include low self-esteem/confidence, learning disabilities, chaotic/dysfunctional household, history of abuse, recent bereavement or loss, change in physical appearance, physical injuries, receipt of gifts from unknown sources, self-harm, poor mental health, estranged from family, absence from school, evidence of sexual bullying/vulnerability through internet/social media sites.

Radicalisation and Extremism

Possible signs may include: General changes of mood, patterns of behaviour, secrecy, changes of friends and mode of dress, use of inappropriate language, possession of violent extremist literature, the expression of extremist views, advocating violent actions and means, association with known extremists, seeking to recruit others to an extremist ideology.

Child in Need

The school also recognises that, in addition to children who are being abused or at risk of serious harm, there may be children in need who require support and help. These children may include those:

- coping with a disability
- undergoing certain medical treatments
- parental illness/disability
- family in acute stress
- family dysfunction
- poor body image

These lists are by no means exhaustive. Further information is available within KCSIE, on the ESCB www.escb.co.uk and NSPCC www.nspcc.org.uk websites.

9. SUPPORTING PUPILS AT RISK

Our school is committed to ensuring that pupils receive the right help at the right time. We recognise that children who are abused or who witness violence may find it difficult to develop a sense of self-worth or view the world as a positive place.

We will endeavour to support **all** pupils through:

- The curriculum to encourage our pupils to stay safe, develop healthy relationships, self-esteem and self-motivation.
- The school ethos which promotes a positive, supportive and secure environment and which gives all pupils and adults a sense of being respected and valued.
- The implementation of the school's behaviour management and anti-bullying policies.
- A consistent approach agreed by all staff which will endeavour to ensure the pupil knows that some behaviour is unacceptable but that they are valued.
- Regular liaison with other professionals and agencies who support the pupils and their families.
- A commitment to develop open and honest and supportive relationships with

parents, always with the child's best interest as paramount.

- The development and support of a responsive and knowledgeable staff group, trained to respond appropriately in all matters of child protection.
- Recognition that children with behavioural difficulties and disabilities are most vulnerable to abuse, and that staff who work in any capacity with children with profound and multiple disabilities, sensory impairment and/or emotional and behavioural problems need to be particularly sensitive to signs of abuse.
- Recognition that in a home environment where there is domestic violence, drug or alcohol abuse, children are also vulnerable and may be in need of support or protection.

10. CHILDREN POTENTIALLY AT RISK OF GREATER HARM

We recognise that some children may potentially be at risk of greater harm and require additional help and support. These may be children with a Child in Need or Child Protection Plan, those in Care or previously in Care or those requiring mental health support. We work with Social Care and other appropriate agencies to ensure there is a joined-up approach to planning for these children and that they receive the right help at the right time.

Our school understands that children with special educational needs (SEN) and / or disabilities can face additional safeguarding challenges. Barriers can exist when recognising abuse and neglect in this group of children. These can include:

- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability, without further exploration
- That they may be more prone to peer group isolation than others
- The potential to be disproportionately impacted by things like bullying, without outwardly showing signs
- Communication difficulties in overcoming these barriers

11. PROCEDURES FOR REPORTING CONCERNS

Our school works with key local partners to promote the welfare of children and protect them from harm. This includes providing a co-ordinated offer of early help when additional needs of children are identified and contributing to inter-agency plans which provide additional support (through a Child in Need or a Child Protection plan).

All staff members have a duty to identify and respond to suspected / actual abuse or disclosures of abuse. Any member of staff, volunteer or visitor to the school who receives a disclosure or allegation of abuse, or suspects that abuse may have occurred, **must** report it immediately to the designated safeguarding lead (or, in their absence, the deputy designated safeguarding lead).

All action is taken in accordance with the following guidance:

- Essex Safeguarding Children Board guidelines - the SET (Southend, Essex and Thurrock) Child Protection Procedures (ESCB, 2026)
- [Essex Effective Support](#)
- Keeping Children Safe in Education (DfE, 2025)
- Working Together to Safeguard Children (DfE, 2026)
- 'Effective Support for Children and Families in Essex' (ESCB)
- PREVENT Duty - Counter-Terrorism and Security Act (HMG, 2015)

Any staff member or visitor to the school must refer any concerns to the designated safeguarding lead or deputy designated safeguarding lead. Where there is risk of immediate harm, concerns will be referred by telephone to the Children and Families Hub and / or the Police. Less urgent concerns or requests for support will be sent to the Children and Families Hub via [Essex Effective Support](#). We may also seek advice from Social Care or another appropriate agency about a concern if we are unsure how to respond to it. Wherever possible, we will share any safeguarding concerns, or an intention to refer a child to another agency, with parents or carers. However, we will not do so where it is felt that to do so could place a child at greater risk of harm or impede a criminal investigation. If it is necessary for an external agency to meet with a child in school, we will always seek to inform parents or carers, unless we are advised not to by that agency. On occasions, it may be necessary to consult with the Children and Families Hub and / or Essex Police for advice on when to share information with parents / carers.

All staff understand that, if they continue to have concerns about a child, feel a concern is not being addressed or that a situation does not appear to be improving for a child, they should raise this with the designated safeguarding lead.

Where an immediate response is required, and if for any reason the designated safeguarding lead (or deputy) is not immediately available, this will not delay any appropriate action being taken. Safeguarding contact details are displayed in the school to ensure that all staff members have access to urgent safeguarding support, should it be required. Any individual may refer to Social Care where there is suspected or actual risk of harm to a child.

When new staff, volunteers or regular visitors join our school they are informed of the safeguarding arrangements in place, the name of the designated safeguarding lead (and deputy) and how to share concerns with them. We also provide information on safeguarding to any visitor to our school, so they understand how to report a concern if they have one.

The school publish its Safeguarding and Child Protection Policy (including Appendices) on its website. All Governors and staff members are given (and are required to read) a copy of this policy and its appendices. They must acknowledge this by signature or via CPOMS.

Staff are kept informed about child protection responsibilities and procedures through induction, briefings and awareness training.

When dealing with a disclosure staff should:

- Not ask leading questions, that is, a question which suggests its own answer.
- Ask the child to repeat or clarify if you do not understand or need clarification about what they have said.
- Allow the child to speak freely.
- Listen to what is being said without showing shock or disbelief.
- Not criticise the alleged perpetrator.
- Listen carefully to the child and consider their views. Keep an open mind (staff should accept what is being said and not take a decision as to whether or not the abuse has taken place).
- Never promise confidentiality. Explain (in terms appropriate to the child's

age/stage of development) who has to be told, reassuring the child that this is to enable you to help keep them and other children safe.

- Not view or forward illegal images of the child.
- Reassure the child that what has happened is not their fault.
- Reassure the child that telling you was the right thing to do.
- Explain (in terms appropriate to the child's age/stage of development) what will happen next.
- Make brief notes at the time or immediately afterwards, which record the date, time, place and context of the disclosure or concern, and what has actually been said (wherever possible using the child's exact words, even if they seem childish, rude or inappropriate), not assumption or interpretation. Notes must be signed and dated.
- Complete a Record of Concern Form, attach any original notes and pass them to the DSL/DDSL immediately.
- Clearly distinguish between fact, observation, allegation and opinion.
- Record any observed injuries or bruises (using a body map where appropriate). Staff must **NEVER** ask a child to remove or adjust clothing to enable them to view any part of the child's body which is not usually on display. Staff must **NEVER** take photographs of any injuries. A clear, detailed description of any obvious and visible injuries should be recorded.
- Note the non-verbal behaviour and the key words in the language used by the pupil (do not translate to the 'proper terms').
- Appreciate that their records may be used in criminal proceedings or disciplinary investigations.
- No copies of written records should be retained by the member of staff/volunteer.

All concerns, however minor, should be recorded. CPOMS is used for more general observations, e.g. behaviour, lateness, correct, clean and appropriate uniform, appropriate snacks and lunches provided, medical issues etc. However, if the child already has a child protection folder the concerns can also be recorded on CPOMS as they will have their safeguarding file stored within the CPOMS system. The DSL/DDSL are automatically informed of all incidents via CPOMS.

Disclosures and Incidents of a more serious nature are recorded on a Record of Concern Form and passed to the DSL/DDSL immediately.

Child in Need

In the case of a Child in Need being identified, the DSL/DDSL will immediately go to the Essex County Council website where we will make a request for support to the Children and Families Hub. A Child in Need is defined under the Children Act 1989 as a child who is unlikely to reach, or maintain a satisfactory level of health or development, or their health or development will be significantly impaired without the provision of services, or the child is disabled.

Child at Risk

In the case of a child at risk being identified, immediately the DSL/DDSL will call the Children and Families Hub on **0345 603 7627** and ask for the **Priority Line**, or call the police on **999**. During out of hours (Monday to Thursday 5pm-9am, Friday and Bank Holidays 4.30pm- 9am) we will call **0345 606 1212** or e-mail Emergency.DutyTeamOutOfHours@essex.gov.uk

Any individual may refer to Social Care where there is suspected or actual risk

of harm to a child.

WE DO NOT REQUIRE PARENTAL CONSENT FOR REFERRALS TO STATUTORY AGENCIES.

Our school works with regard to the Prevent Duty and approaches the issue in the same way as any other child protection matter. The school assesses the risk of children being drawn into terrorism and who may be at risk of radicalisation and any concerns that one of our pupils is at risk in this respect will be referred to Children's Social Care (or Channel if appropriate) in line with the current SET procedures. Concerns may also be forwarded to prevent@Essex.pnn.police.uk. Additional contacts for help and advice are 101 (the non emergency police number) 02073407264 and counter.extremism@education.gov.uk (telephone helpline and mailbox for non emergency advice for staff and governors).

12. TRAINING AND SUPPORT

In line with statutory requirements, the designated safeguarding lead (and deputy) undertake Level 3 child protection training at least every two years. The Headteacher, all staff members and governors receive appropriate child protection training which is regularly updated and in line with advice from the Essex Safeguarding Children Board (ESCB). In addition, all staff members and other adults working with children in our school receive safeguarding and child protection updates as required, but at least annually, to provide them with relevant skills and knowledge to safeguard children effectively. Records of any safeguarding / child protection training undertaken are kept for all staff and governors.

The school ensures that the designated safeguarding lead (and deputy) also undertakes training in inter-agency working, Prevent and other matters as appropriate.

When new staff, volunteers, peripatetic staff or regular visitors join our school they are informed of the safeguarding arrangements in place, the name of the DSL and DDSL and how to share concerns with them. They are given a copy of our school's Safeguarding and Child Protection Policy with appendices, Whistleblowing Policy, Lower-Level Concerns, Behaviour & Discipline Policy, Staff Code of Conduct, Social Network Policy, IT Acceptable Use, Anti-Bullying Policy, Mental Health and Equal Opportunities Policy. They are told who our DSL/DDSL are and informed how to share concerns with them. They are informed of the procedure for children missing education. There may be other adults in the school, who work supervised or unsupervised on a regular basis. For those people, the Headteacher will ensure they receive induction training, they are made aware of the identity of the DSL/DDSL and that they receive a copy of this policy and its appendices (which they will be required to sign to acknowledge receipt of).

Dealing with child protection issues is likely to be a stressful experience. Where appropriate, the DSL/DDSL or the Headteacher will provide support and supervision to staff involved in child protection issues.

13. INFORMATION SHARING AND CONFIDENTIALITY

Sharing information is a key part of safeguarding work and we understand that decisions about how much information to share, with whom and when, can have a profound impact on a child's life. Our school is signed up to the Education and Learning

Information Sharing Protocol which includes information sharing for safeguarding purposes. This protocol enables us to share and receive information with the Local Authority in a legal, safe, and secure way, to support our work in keeping children safe.

Where there are concerns about the safety of a child, the sharing of information in a timely and effective manner between organisations can reduce the risk of harm. Whilst the Data Protection Act 2018 places duties on organisations and individuals to process personal information fairly and lawfully, it is not a barrier to sharing information, where the failure to do so would result in a child or vulnerable adult being placed at risk of harm. Similarly, human rights concerns, such as respecting the right to a private and family life, would not prevent sharing information where there are real safeguarding concerns. Fears about sharing information cannot (and will not) stand in the way of the need to safeguard and promote the welfare of children at risk of abuse or neglect. Generic data flows related to child protection are recorded in our Records of Processing Activity and are regularly reviewed; and our online school privacy notices accurately reflect our use of data for child protection purposes.

A member of staff will never guarantee confidentiality to anyone (including parents/carers or pupils) about a safeguarding concern, nor promise to keep a secret. In accordance with statutory requirements, where there is a child protection concern, this must be reported to the designated safeguarding lead and may require further referral to and subsequent investigation by appropriate authorities.

In some cases, it may be necessary for the designated safeguarding lead (or deputy) to share information on individual child protection cases with other relevant staff members. This will be on a 'need to know' basis only and where it is in the child's best interests to do so.

Information sharing can help to ensure that a child receives the right help at the right time and can prevent a concern from becoming more serious and difficult to address.

14. CHILD PROTECTION RECORDS

Well-kept records are an essential aspect of effective child protection practice. Our school is clear about the need to record any concern held about a child or children within our school and when these records should be shared with other agencies.

Any member of staff receiving a disclosure of abuse or noticing signs or indicators of abuse will record it as soon as possible, noting what was said or seen (if appropriate, using a body map to record), giving the date, time and location. **All Child Protection Report of a Concern Forms will be dated and signed and will include the action taken.** All records will be dated and signed and will include the action taken. This is then presented to the designated safeguarding lead (or deputy), who will decide on appropriate action and record this accordingly.

Any records relating to child protection are kept on an individual child protection file for that child on CPOMS (which is separate to the pupil file). All child protection records are stored securely and confidentially and will be retained for 25 years after the pupil's date of birth, or until they transfer to another school / educational setting.

CPOMS is also used by all staff to record any general observations (i.e. where there is no cause for immediate concern) for those children who do not have child protection files. The DSL/DDSL are notified with every incident inputted on CPOMS which allows

an immediate and thorough monitoring process. The DSL/DDSL and the Deputy Headteacher responsible for pastoral care meet regularly to review any information and concerns regarding safeguarding issues. The DSL/DDSL meet once a term with the Safeguarding Governor. The DSL/DDSL meet with the relevant staff who teach children with child protection files at the start of the academic year to pass on any relevant information. It is the responsibility of the class teacher to update other staff members (on a need-to-know basis) who teach their class of any significant matters relating to a child with a child protection file throughout the year.

In line with statutory guidance, where a pupil transfers from our school to another school / educational setting (including colleges), their child protection records will be forwarded to the new setting. These will be marked 'Confidential' and for the attention of the receiving school's designated safeguarding lead, with a return address on the envelope so it can be returned to us if it goes astray. We will obtain evidence that the paperwork has been received by the new school and then destroy any copies held in our school. Where appropriate, the designated safeguarding lead may also make contact with the new setting in advance of the child's move there, to enable planning so appropriate support is in place when the child arrives.

Where a pupil joins our school, we will request child protection records from the previous educational establishment (if none are received).

15. INTERAGENCY WORKING

It is important that agencies work together to keep children safe, and there is a legal requirement to do so.

We work with other relevant agencies, such as Social Care, the Virtual School, Police and Health / mental health services to support children and keep them safe. This includes where a child in our school (or who was previously known to us) has a Child in Need, Child Protection or Care Plan. Where this is the case, it is the responsibility of the designated safeguarding lead to ensure our school is represented at, and that a report is submitted to, any statutory meeting called. Where possible and appropriate, any report will be shared in advance with the parent(s) / carer(s). The member of staff attending the meeting will be fully briefed on any issues or concerns the school has and be prepared to contribute to the discussions.

If a child is subject to a Care, Child Protection or a Child in Need plan, the designated safeguarding lead will have oversight of their school attendance, emotional well-being, academic progress, welfare and presentation, linking with the Essex Virtual School, which has strategic oversight of this group of children. Where our school is part of the core group, the designated safeguarding lead will ensure we are represented, provide appropriate information and contribute to the plan at these meetings. We will report on the child's progress in school, and any concerns about them will be shared at the meeting, unless to do so would place them at risk of harm. In this case the designated safeguarding lead would speak with the child's key-worker outside of the meeting, and as soon as there is a concern.

16. ALLEGATIONS ABOUT MEMBERS OF THE CHILDREN'S WORKFORCE

We ensure all staff members (including agency staff) are made aware of the

boundaries of appropriate behaviour and conduct. These matters form part of staff induction and are outlined in our Staff Behaviour policy / Code of Conduct. All staff are regularly reminded of this through updates and training, and are also informed about our Whistleblowing Policy.

Keeping Children Safe in Education (DfE 2025) and the SET procedures (ESCB 2026) set out the procedures in respect of allegations against an adult working with children (in a paid or voluntary capacity). These procedures should be followed where an adult has:

- behaved in a way that has harmed a child, or may have harmed a child and/or
- possibly committed a criminal offence against or related to a child, and/or
- behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children, and/or
- behaved or may have behaved in a way that indicates they may not be suitable to work with children

Any concerns about an adult in our setting should be reported to the Headteacher or the designated safeguarding lead, who will then decide how to take this forward. In some cases, it might not be clear whether an incident constitutes an allegation. If this is the case, it will be necessary for us to explore the concerns to establish some facts

– this initial fact-finding is not an investigation, it is to clarify information and to direct our response to the concern raised.

Where an allegation against a member of staff is received, and it is felt that any of the above criteria apply, the SET procedures (ESCB, 2026) require this to be reported to the Duty Local Authority Designated Officer (LADO) at the Essex Children's Workforce Allegations Team at LADO@essex.gov.uk. We may not carry out any investigation before a Children's Workforce Allegations Team referral has been made.

In the event of an allegation relating to the conduct and behaviour of an agency member of staff, the Headteacher (or Deputy) will liaise with the agency, while following due process, to facilitate a joint investigation or enable the agency to move this forward.

Any concern relating to the Headteacher should be reported directly to the Chair of Governors, who will refer the matter to the Children's Workforce Allegations Team.

Staffing matters are confidential and the school operates within a statutory framework around Data Protection. We do not share information about any individual staff member with anyone other than appropriate statutory agencies.

17. LOWER-LEVEL CONCERNS AND ALLEGATIONS ('Low-level' concerns)

This section should be read in conjunction with our 'Lower-Level' Concerns Policy.

Low level concerns and allegations that do not meet the harms test (In other words it is something a person may do to cause harm or pose a risk of harm to a child or vulnerable adult) should be addressed separately.

We have created and embedded a culture of openness, trust and transparency in which our school's values and expected behaviours are set out in the Staff Code of Conduct which are constantly lived, monitored and reinforced by all staff including supply staff and volunteers.

Low Level Concerns and allegations will be reported to the Headteacher. Reports concerning supply staff, contractors will be notified to their employers so any potential patterns inappropriate behaviour can be identified.

The Lower-Level Concerns Policy sets out procedures for responding to reports of low-level concerns and allegations.

Reports of lower-level concerns and allegations and the rationale for all decisions and actions taken will be recorded in writing, with the details of the concern, the context in which the concern/allegation arose and action taken.

The name of the person reporting will be noted however, we will be respectful of wishes to remain anonymous as far as reasonably possible.

Records of lower-level concerns will be reviewed so that patterns of concerning, problematic or inappropriate behaviour can be identified and responded to.

Where a pattern of behaviour is identified, the Headteacher will decide on a course of action. This might be internal disciplinary procedures, or referral to the LADO if the harms threshold is met.

The school must consider if any wider cultural issues enabled the behaviour to occur and if appropriate policies already in place can be revised and/or additional training delivered to minimise the risk of reoccurrence.

18. BEHAVIOUR, RESTRICTIVE INTERVENTION AND USE OF REASONABLE FORCE

Our Behaviour Policy sets out our approach to behaviour for all children and also for those with more difficult or harmful behaviour. We recognise there are some children who have needs that require additional support and a more personalised approach and we always consider all behaviour, and our response to it, in the context of safeguarding.

There are occasions when staff will have cause to have physical contact with children and young people for a variety of reasons, this may include:

- to comfort a child or young person in distress (*appropriate to their age and individual specific needs identified through a risk assessment*);
- to direct a child or young person;
- for curricular reasons (*for example in PE, Music, Drama etc*);
- in an emergency, to avert danger to the child or young person or others;

Our school works in accordance with the guidance produced by the Department for Education '[Restrictive interventions, including use of reasonable force](#)'. Please refer to our school's restrictive interventions and use of reasonable force policy.

19. WHISTLEBLOWING

Whistleblowing is 'making a disclosure in the public interest' and occurs when a worker (or member of the wider school community) raises a concern about danger or illegality that affects others, for example pupils in the school or members of the public. All staff

are made aware of the duty to raise concerns about the attitude or actions of staff in line with the school's Staff Code of Conduct and Whistleblowing policies.

All members of staff and the wider school community should be able to raise concerns about poor or unsafe practice and feel confident any concern will be taken seriously by the school leadership team. We have 'whistleblowing' procedures in place and these are available in the school Whistleblowing Policy. However, for any member of staff who feels unable to raise concerns internally, or where they feel their concerns have not been addressed, they may contact the [NSPCC whistleblowing helpline](https://www.nspcc.org.uk/help) on: 0800 028 0285 (line is available from 8:00 AM to 8:00 PM, Monday to Friday) or by email at: help@nspcc.org.uk.

Parents or others in the wider school community with concerns can contact the NSPCC general helpline on: 0808 800 5000 (24-hour helpline) or email: help@nspcc.org.uk.

20. POLICY REVIEW

This policy is reviewed, as a minimum, annually by the DSL/DDSL and is developed continually. Any weaknesses are remedied immediately. The next scheduled review of the policy will therefore be in September 2026.

21. LIST OF APPENDICES

- A. KCSIE: Part One: Safeguarding information for all staff, DfE, 2025 (including Annex: Further information)
- B. Report of a Concern Form
- C. Children and Families Service Map and Key Contacts
- D. Essex Windscreen of Need & Levels of Intervention
- E. Role of the DSL/DDSL
- F. Missing Child Protocol
- G. Concern for a child or young person and their family

**Chair of Governors:
Mrs Fiona Deery**

Signature: *F. Deery*

Policy Ratified: May 2026

Date of next review: September 2026

Part one: Safeguarding information for all staff

What school and college staff should know and do

A child centred and co-ordinated approach to safeguarding

1. Schools and colleges and their staff are an important part of the wider safeguarding system for children. This system is described in the statutory guidance [Working Together to Safeguard Children](#).
2. Safeguarding and promoting the welfare of children is everyone's responsibility. 'Children' includes everyone under the age of 18. Everyone who comes into contact with children and their families has a role to play. In order to fulfil this responsibility effectively, all practitioners should make sure their approach is child centred. This means that they should consider, at all times, what is in the best interests of the child.
3. No single practitioner can have a full picture of a child's needs and circumstances. If children and families are to receive the right help at the right time, everyone who comes into contact with them has a role to play in identifying concerns, sharing information and taking prompt action. Safeguarding and promoting the welfare of children is defined for the purposes of this guidance as:
 - providing help and support to meet the needs of children as soon as problems emerge
 - protecting children from maltreatment, whether that is within or outside the home, including online
 - preventing the impairment of children's mental and physical health or development
 - ensuring that children grow up in circumstances consistent with the provision of safe and effective care
 - taking action to enable all children to have the best outcomes

The role of school and college staff

4. School and college staff are particularly important, as they are in a position to identify concerns early, provide help for children, promote children's welfare and prevent concerns from escalating.
5. All staff have a responsibility to provide a safe environment in which children can learn.

6. All staff should be prepared to identify children who may benefit from early help.⁴ Early help means providing support as soon as a problem emerges at any point in a child's life, from the foundation years through to the teenage years.

7. Any staff member who has any concerns about a child's welfare should follow the processes set out in paragraphs 49-55. Staff should expect to support social workers and other agencies following any referral.

8. Every school and college should have a designated safeguarding lead who will provide support to staff to carry out their safeguarding duties and who will liaise closely with other services such as local authority children's social care.

9. The designated safeguarding lead (and any deputies) are most likely to have a complete safeguarding picture and be the most appropriate person to advise on the response to safeguarding concerns.

10. The Teachers' Standards 2012 state that teachers (which includes headteachers) should safeguard children's wellbeing and maintain public trust in the teaching profession as part of their professional duties.⁵

What school and college staff need to know

11. All staff should be aware of systems within their school or college which support safeguarding, and these should be explained to them as part of staff induction. This should include the:

- child protection policy (which should amongst other things also include the policy and procedures to deal with child-on-child abuse)
- behaviour policy (which should include measures to prevent bullying, including cyberbullying, prejudice-based and discriminatory bullying).⁶
- staff behaviour policy (sometimes called a code of conduct) should amongst other things, include low-level concerns, allegations against staff and whistleblowing
- safeguarding response to children who are absent from education, particularly on repeat occasions and/or prolonged periods

⁴ Detailed information on early help can be found in [Working Together to Safeguard Children](#).

⁵ [Teachers' standards](#).

⁶ All schools are required to have a behaviour policy (full details are [here](#)). If a college chooses to have a behaviour policy it should be provided to staff as described above.

- role of the designated safeguarding lead (including the identity of the designated safeguarding lead and any deputies)

Copies of policies and a copy of Part one (or Annex A, if appropriate) of this document should be provided to **all** staff at induction.

12. All staff should receive appropriate safeguarding and child protection training (including online safety which, amongst other things, includes an understanding of the expectations, applicable roles and responsibilities in relation to filtering and monitoring – see para 140 for further information) at induction. The training should be regularly updated. In addition, all staff should receive safeguarding and child protection (including online safety) updates (for example, via email, e-bulletins, and staff meetings), as required, and at least annually, to continue to provide them with relevant skills and knowledge to safeguard children effectively.

13. All staff should be aware of their local early help process and understand their role in it.

14. All staff should be aware of the process for making referrals to local authority children's social care and for statutory assessments.⁷ under the Children Act 1989, especially section 17 (children in need) and section 47 (a child suffering, or likely to suffer, significant harm) that may follow a referral, along with the role they might be expected to play in such assessments.

15. All staff should know what to do if a child tells them they are being abused, exploited, or neglected. Staff should know how to manage the requirement to maintain an appropriate level of confidentiality. This means only involving those who need to be involved, such as the designated safeguarding lead (or a deputy) and local authority children's social care. Staff should never promise a child that they will not tell anyone about a report of any form of abuse, as this may ultimately not be in the best interests of the child.

16. All staff should be able to reassure victims that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting any form of abuse and/or neglect. Nor should a victim ever be made to feel ashamed for making a report.

17. All staff should be aware that children may not feel ready or know how to tell someone that they are being abused, exploited, or neglected, and/or they may not

⁷ Detailed information on statutory assessments can be found in [Working Together to Safeguard Children](#)

recognise their experiences as harmful. For example, children may feel embarrassed, humiliated, or are being threatened. This could be due to their vulnerability, disability and/or sexual orientation or language barriers. This should not prevent staff from having a professional curiosity and speaking to the designated safeguarding lead if they have concerns about a child. It is also important that staff determine how best to build trusted relationships which facilitate communication with children and young people.

What school and college staff should look out for

Early help

18. Any child may benefit from early help, but all school and college staff should be particularly alert to the potential need for early help for a child who:

- is disabled or has certain health conditions and has specific additional needs
- has special educational needs (whether or not they have a statutory Education, Health and Care plan)
- has a mental health need
- is a young carer
- is showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement and association with organised crime groups or county lines
- is frequently missing/goes missing from education, home or care
- has experienced multiple suspensions, is at risk of being permanently excluded from schools, colleges and in Alternative Provision or a Pupil Referral Unit
- is at risk of modern slavery, trafficking, sexual and/or criminal exploitation
- is at risk of being radicalised or exploited
- has a parent or carer in custody, or is affected by parental offending
- is in a family circumstance presenting challenges for the child, such as drug and alcohol misuse, adult mental health issues and domestic abuse
- is misusing alcohol and other drugs themselves
- is at risk of so-called 'honour'-based abuse such as Female Genital Mutilation or Forced Marriage
- is a privately fostered child.

Abuse, neglect and exploitation

19. All staff should be aware of the indicators of abuse, neglect and exploitation (see below), understanding that children can be at risk of harm inside and outside of the school/college, inside and outside of home, and online. Exercising professional curiosity and knowing what to look for is vital for the early identification of abuse and neglect so that staff are able to identify cases of children who may be in need of help or protection.

20. All school and college staff should be aware that abuse, neglect, exploitation, and safeguarding issues are rarely standalone events and cannot be covered by one definition or one label alone. In most cases, multiple issues will overlap.

21. All staff, but especially the designated safeguarding lead (and deputies) should consider whether children are at risk of abuse or exploitation in situations outside their families. Extra familial harms take a variety of different forms and children can be vulnerable to multiple harms including (but not limited to) sexual abuse (including harassment and exploitation), domestic abuse in their own intimate relationships (teenage relationship abuse), criminal exploitation, serious youth violence, county lines and radicalisation.

22. All staff should be aware that technology is a significant component in many safeguarding and wellbeing issues. Children are at risk of abuse and other risks online as well as face to face. In many cases abuse and other risks will take place concurrently both online and offline. Children can also abuse other children online, this can take the form of abusive, harassing, and misogynistic/misandrist messages, the non-consensual sharing of indecent images, especially around chat groups, and the sharing of abusive images and pornography to those who do not want to receive such content.

23. **In all cases, if staff are unsure, they should always speak to the designated safeguarding lead or a deputy.**

Indicators of abuse and neglect

24. **Abuse:** a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Harm can include ill treatment that is not physical as well as the impact of witnessing ill treatment of others. This can be particularly relevant, for example, in relation to the impact on children of all forms of domestic abuse, including where they see, hear or experience its effects. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can

take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or by another child or children.

25. **Physical abuse:** a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

26. **Emotional abuse:** the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning or preventing the child from participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

27. **Sexual abuse:** involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing, and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse. Sexual abuse can take place online, and technology can be used to facilitate offline abuse. Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. The sexual abuse of children by other children is a specific safeguarding issue in education and all staff should be aware of it and of their school or college's policy and procedures for dealing with it.

28. **Neglect:** the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy, for example, as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion

from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate caregivers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Safeguarding issues

29. **All** staff should have an awareness of safeguarding issues that can put children at risk of harm. Behaviours linked to issues such as drug taking and/or alcohol misuse, unexplainable and/or persistent absences from education, serious violence (including that linked to county lines), radicalisation and consensual and non-consensual sharing of nude and semi-nude images and/or videos.⁸ can be signs that children are at risk. Below are some safeguarding issues all staff should be aware of.

Additional information on these safeguarding issues and information on other safeguarding issues is included in Annex B.

Child-on-child abuse

30. **All** staff should be aware that children can abuse other children (often referred to as child-on-child abuse), and that it can happen both inside and outside of school or college and online. **All** staff should be clear as to the school or college's policy and procedures with regard to child-on-child abuse and the important role they have to play in preventing it and responding where they believe a child may be at risk from it.

31. **All** staff should understand that even if there are no reports in their schools or colleges it does not mean it is not happening. It may be the case that abuse is not being reported. As such it is important that when staff have **any** concerns regarding child-on-child abuse they should speak to their designated safeguarding lead (or a deputy).

32. It is essential that **all** staff understand the importance of challenging inappropriate behaviours between children that are abusive in nature. Examples of which are listed below. Downplaying certain behaviours, for example dismissing sexual harassment as "just banter", "just having a laugh", "part of growing up" or "boys being boys" can lead to a culture of unacceptable behaviours, an unsafe

⁸ Consensual image sharing, especially between older children of the same age, may require a different response. It might not be abusive – but children still need to know it is illegal- whilst non-consensual is illegal and abusive. [UKCIS](#) provides detailed advice about sharing of nudes and semi-nude images and videos.

environment for children and in worst case scenarios a culture that normalises abuse leading to children accepting it as normal and not coming forward to report it.

33. Child-on-child abuse is most likely to include, but may not be limited to:

- bullying (including cyberbullying, prejudice-based and discriminatory bullying)
- abuse in intimate personal relationships between children (sometimes known as ‘teenage relationship abuse’)
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm (this may include an online element which facilitates, threatens and/or encourages physical abuse)
- sexual violence⁹ such as rape, assault by penetration and sexual assault; (this may include an online element which facilitates, threatens and/or encourages sexual violence)
- sexual harassment¹⁰ such as sexual comments, remarks, jokes and online sexual harassment, which may be standalone or part of a broader pattern of abuse
- causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party
- consensual and non-consensual sharing of nude and semi-nude images and/or videos¹¹ (also known as sexting or youth produced sexual imagery)
- upskirting¹² which typically involves taking a picture under a person’s clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress, or alarm, and
- initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element).

⁹ For further information about sexual violence see Part 5 and Annex B.

¹⁰ For further information about sexual harassment see Part 5 and Annex B.

¹¹ UKCIS guidance: [Sharing nudes and semi-nudes advice for education settings](#)

¹² For further information about ‘upskirting’ see Annex B.

Child criminal exploitation (CCE) and child sexual exploitation (CSE)

34. Both CCE and CSE are forms of abuse that occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into taking part in criminal or sexual activity. It may involve an exchange for something the victim needs or wants, and/or for the financial advantage or increased status of the perpetrator or facilitator and/or through violence or the threat of violence. CCE and CSE can affect children, both male and female and can include children who have been moved (commonly referred to as trafficking) for the purpose of exploitation.

Child criminal exploitation (CCE)¹³

35. Some specific forms of CCE can include children being forced or manipulated into transporting drugs or money through county lines, working in cannabis factories, shoplifting or pickpocketing. They can also be forced or manipulated into committing vehicle crime or threatening/committing serious violence to others.

36. Children can become trapped by this type of exploitation, as perpetrators can threaten victims (and their families) with violence or entrap and coerce them into debt. They may be coerced into carrying weapons such as knives or begin to carry a knife for a sense of protection from harm from others. As children involved in criminal exploitation often commit crimes themselves, their vulnerability as victims is not always recognised by adults and professionals, (particularly older children), and they are not treated as victims despite the harm they have experienced. They may still have been criminally exploited even if the activity appears to be something they have agreed or consented to.

37. It is important to note that the experience of girls who are criminally exploited can be very different to that of boys. The indicators may not be the same, however professionals should be aware that girls are at risk of criminal exploitation too. It is also important to note that both boys and girls being criminally exploited may be at higher risk of sexual exploitation.

Child sexual exploitation (CSE)

38. CSE is a form of child sexual abuse. Sexual abuse may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing, and touching outside

¹³ See information on CCE definition on page 48 of [Home Office's Serious Violence Strategy](#)

clothing. It may include non-contact activities, such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for abuse including via the internet.

39. CSE can occur over time or be a one-off occurrence and may happen without the child's immediate knowledge for example through others sharing videos or images of them on social media.

40. CSE can affect any child who has been coerced into engaging in sexual activities. This includes 16- and 17-year-olds who can legally consent to have sex. Some children do not realise they are being exploited and may believe they are in a genuine romantic relationship.

Domestic abuse

41. Domestic abuse can encompass a wide range of behaviours and may be a single incident or a pattern of incidents. That abuse can be, but is not limited to, psychological, physical, sexual, financial or emotional. Children can be victims of domestic abuse. They may see, hear, or experience the effects of abuse at home and/or suffer domestic abuse in their own intimate relationships (teenage relationship abuse). All of which can have a detrimental and long-term impact on their health, well-being, development, and ability to learn.

Female genital mutilation (FGM)

42. Whilst **all** staff should speak to the designated safeguarding lead (or a deputy) with regard to any concerns about female genital mutilation (FGM), there is a specific **legal duty on teachers**.¹⁴ If a teacher, in the course of their work in the profession, discovers that an act of FGM appears to have been carried out on a girl under the age of 18, the teacher **must** report this to the police. See page 161 for further information.

Mental health

43. **All** staff should be aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

¹⁴ Under section 5B(11) (a) of the Female Genital Mutilation Act 2003, "teacher" means, in relation to England, a person within section 141A(1) of the Education Act 2002 (persons employed or engaged to carry out teaching work at schools and other institutions in England).

44. Only appropriately trained professionals should attempt to make a diagnosis of a mental health problem. Education staff, however, are well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one. Schools and colleges can access a range of advice to help them identify children in need of extra mental health support, this includes working with external agencies.

45. If staff have a mental health concern about a child that is also a safeguarding concern, immediate action should be taken to follow their school or college's child protection policy and by speaking to the designated safeguarding lead or a deputy.

Serious violence

46. **All** staff should be aware of the indicators, which may signal children are at risk from, or are involved with, serious violent crime. These may include increased absence from school or college, a change in friendships or relationships with older individuals or groups, a significant decline in educational performance, signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries. Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation.

Additional information and support

47. Departmental advice [What to do if you're worried a child is being abused: advice for practitioners](#) provides more information on understanding and identifying abuse and neglect. Examples of potential indicators of abuse and neglect are highlighted throughout that advice and will be particularly helpful for school and college staff. The [NSPCC](#) website also provides useful additional information on abuse and neglect and what to look out for.

48. **Annex B contains important additional information about specific forms of abuse, exploitation and safeguarding issues. School and college leaders and those staff who work directly with children should read Annex B.**

What school and college staff should do if they have concerns about a child

49. Staff working with children are advised to maintain an attitude of '**it could happen here**' where safeguarding is concerned. When concerned about the welfare of a child, staff should always act in the **best interests** of the child.

50. If staff have **any concerns** about a child's welfare, they should act on them **immediately**. See page 24 for a flow chart setting out the process for staff when they have concerns about a child.

51. If staff have a concern, they should follow their own organisation's child protection policy and speak to the designated safeguarding lead (or a deputy).

52. Options will then include:

- managing any support for the child internally via the school or college's own pastoral support processes
- undertaking an early help assessment,¹⁵ or
- making a referral to statutory services,¹⁶ for example as the child could be in need, is in need or is suffering, or likely to suffer harm.

53. The designated safeguarding lead (or a deputy) should always be available to discuss safeguarding concerns. If in exceptional circumstances, the designated safeguarding lead (or a deputy) is not available, this should not delay appropriate action being taken. Staff should consider speaking to a member of the senior leadership team and/or take advice from local authority children's social care. In these circumstances, any action taken should be shared with the designated safeguarding lead (or a deputy) as soon as is practically possible.

54. Staff should not assume a colleague, or another professional will take action and share information that might be critical in keeping children safe. They should be mindful that early information sharing is vital for the effective identification, assessment, and allocation of appropriate service provision, whether this is when problems first emerge, or where a child is already known to local authority children's social care (such as a child in need or a child with a protection plan). [Information sharing: advice for practitioners providing safeguarding services to children, young people, parents and carers](#) supports staff who have to make decisions about sharing information. This advice includes the seven golden rules

¹⁵ Further information on early help assessments, provision of early help services and accessing services is in [Working Together to Safeguard Children](#).

¹⁶ [Working Together to Safeguard Children](#) sets out that the safeguarding partners should publish a threshold document that should include the criteria, including the level of need, for when a case should be referred to local authority children's social care for assessment and for statutory services under section 17 and 47. Local authorities, with their partners, should develop and publish local protocols for assessment. A local protocol should set out clear arrangements for how cases will be managed once a child is referred into local authority children's social care.

for sharing information and considerations with regard to the Data Protection Act 2018 (DPA) and UK General Data Protection Regulation (UK GDPR).

55. **DPA and UK GDPR do not prevent the sharing of information for the purposes of keeping children safe and promoting their welfare.** If in any doubt about sharing information, staff should speak to the designated safeguarding lead (or a deputy). Fears about sharing information **must not** be allowed to stand in the way of the need to safeguard and promote the welfare of children.

Early help assessment

56. If early help is appropriate, the designated safeguarding lead (or a deputy) will generally lead on liaising with other agencies and setting up an inter-agency assessment as appropriate. Staff may be required to support other agencies and professionals in an early help assessment, in some cases acting as the lead practitioner. Further guidance on effective assessment of the need for early help can be found in [Working Together to Safeguard Children](#). Any such cases should be kept under constant review and consideration given to a referral to local authority children's social care for assessment for statutory services if the child's situation does not appear to be improving or is getting worse.

Statutory children's social care assessments and services

57. **Where a child is suffering, or is likely to suffer from harm, it is important that a referral to local authority children's social care and if appropriate the police,** (see [when to call the police: guidance for schools and colleges \(npcc.police.uk\)](#)) **is made immediately.** Referrals should follow the local referral process.

58. Local authority children's social care assessments should consider where children are being harmed in contexts outside of the home¹⁷, so it is important that schools and colleges provide as much information as possible as part of the referral process. This will allow any assessment to consider all the available evidence and enable a contextual approach to address such harm. Additional information is available here: [Contextual Safeguarding](#).

59. The online tool [Report child abuse to your local council](#) directs to the relevant local authority children's social care contact details.

¹⁷ See [working together](#) for further information about extra-familial harms and environments outside the family home

Children in need

60. A child in need is defined under the [Children Act 1989](#) as a child who is unlikely to achieve or maintain a reasonable level of health or development, or whose health and development is likely to be significantly or further impaired, without the provision of services; or a child who is disabled. Local authorities are required to provide services for children in need for the purposes of safeguarding and promoting their welfare. Children in need may be assessed under [section 17 of the Children Act 1989](#).

Children suffering or likely to suffer significant harm:

61. Local authorities, with the help of other organisations as appropriate, have a duty to make enquiries under [section 47 of the Children Act 1989](#) if they have reasonable cause to suspect that a child is suffering, or is likely to suffer, significant harm. Such enquiries enable them to decide whether they should take any action to safeguard and promote the child's welfare and must be initiated where there are concerns about maltreatment. This includes all forms of abuse, neglect and exploitation.

What will the local authority do?

62. Within one working day of a referral being made, a local authority social worker should acknowledge its receipt to the referrer and make a decision about the next steps and the type of response that is required. This will include determining whether:

- the child requires immediate protection and urgent action is required
- any services are required by the child and family and what type of services
- the child is in need and should be assessed under section 17 of the Children Act 1989. [Working Together to Safeguard Children](#) provides details of the assessment process
- there is reasonable cause to suspect the child is suffering or likely to suffer significant harm, and whether enquiries must be made, and the child assessed under section 47 of the Children Act 1989. [Working Together to Safeguard Children](#) provides details of the assessment process, and
- further specialist assessments are required to help the local authority to decide what further action to take.

63. The referrer should follow up if this information is not forthcoming.

64. If social workers decide to carry out a statutory assessment, staff should do everything they can to support that assessment (supported by the designated safeguarding lead (or a deputy) as required).

65. If, after a referral, the child's situation does not appear to be improving, the referrer should consider following local escalation procedures to ensure their concerns have been addressed and, most importantly, that the child's situation improves.

Record keeping

66. All concerns, discussions and decisions made, and the reasons for those decisions, should be recorded in writing. This will also help if/when responding to any complaints about the way a case has been handled by the school or college. Information should be kept confidential and stored securely. It is good practice to keep concerns and referrals in a separate child protection file for each child.

Records **should** include:

- a clear and comprehensive summary of the concern
- details of how the concern was followed up and resolved, and
- a note of any action taken, decisions reached and the outcome.

67. If in doubt about recording requirements, staff should discuss with the designated safeguarding lead (or a deputy).

Why is all of this important?

68. It is important for children to receive the right help at the right time to address safeguarding risks, prevent issues escalating and to promote children's welfare. Research and local child safeguarding practice reviews have repeatedly shown the dangers of failing to take effective action.¹⁸ Further information about local child safeguarding practice can be found in [Working Together to Safeguard Children](#). Examples of poor practice include:

- failing to act on and refer the early signs of abuse and neglect
- poor record keeping
- failing to listen to the views of the child

¹⁸An analysis of serious case reviews can be found at gov.uk/government/publications/serious-case-reviews-analysis-lessons-and-challenges

- failing to re-assess concerns when situations do not improve
- not sharing information with the right people within and between agencies
- sharing information too slowly, and
- a lack of challenge to those who appear not to be taking action.

What school and college staff should do if they have a safeguarding concern or an allegation about another staff member

69. Schools and colleges should have processes and procedures in place to manage any safeguarding concern or allegation (no matter how small) about staff members (including supply staff, volunteers, and contractors).

70. If staff have a safeguarding concern or an allegation of harming or posing a risk of harm to children is made about another member of staff (including supply staff, volunteers, and contractors), then:

- this should be referred to the headteacher or principal
- where there is a concern/allegation about the headteacher or principal, this should be referred to the chair of governors, chair of the management committee or proprietor of an independent school, and
- in the event of a concern/allegation about the headteacher, where the headteacher is also the sole proprietor of an independent school, or a situation where there is a conflict of interest in reporting the matter to the headteacher, this should be reported directly to the local authority designated officer(s) LADO(s). Details of your local LADO should be easily accessible on your local authority's website.

71. If staff have a safeguarding concern or an allegation about another member of staff (including supply staff, volunteers or contractors) that does not meet the harm threshold, then this should be shared in accordance with the school or college low-level concerns policy. Further details can be found in Part four of this guidance.

What school or college staff should do if they have concerns about safeguarding practices within the school or college

72. All staff and volunteers should feel able to raise concerns about poor or unsafe practice and potential failures in the school or college's safeguarding provision and know that such concerns will be taken seriously by the senior leadership team.

73. Appropriate whistleblowing procedures should be put in place for such concerns to be raised with the school or college's senior leadership team.

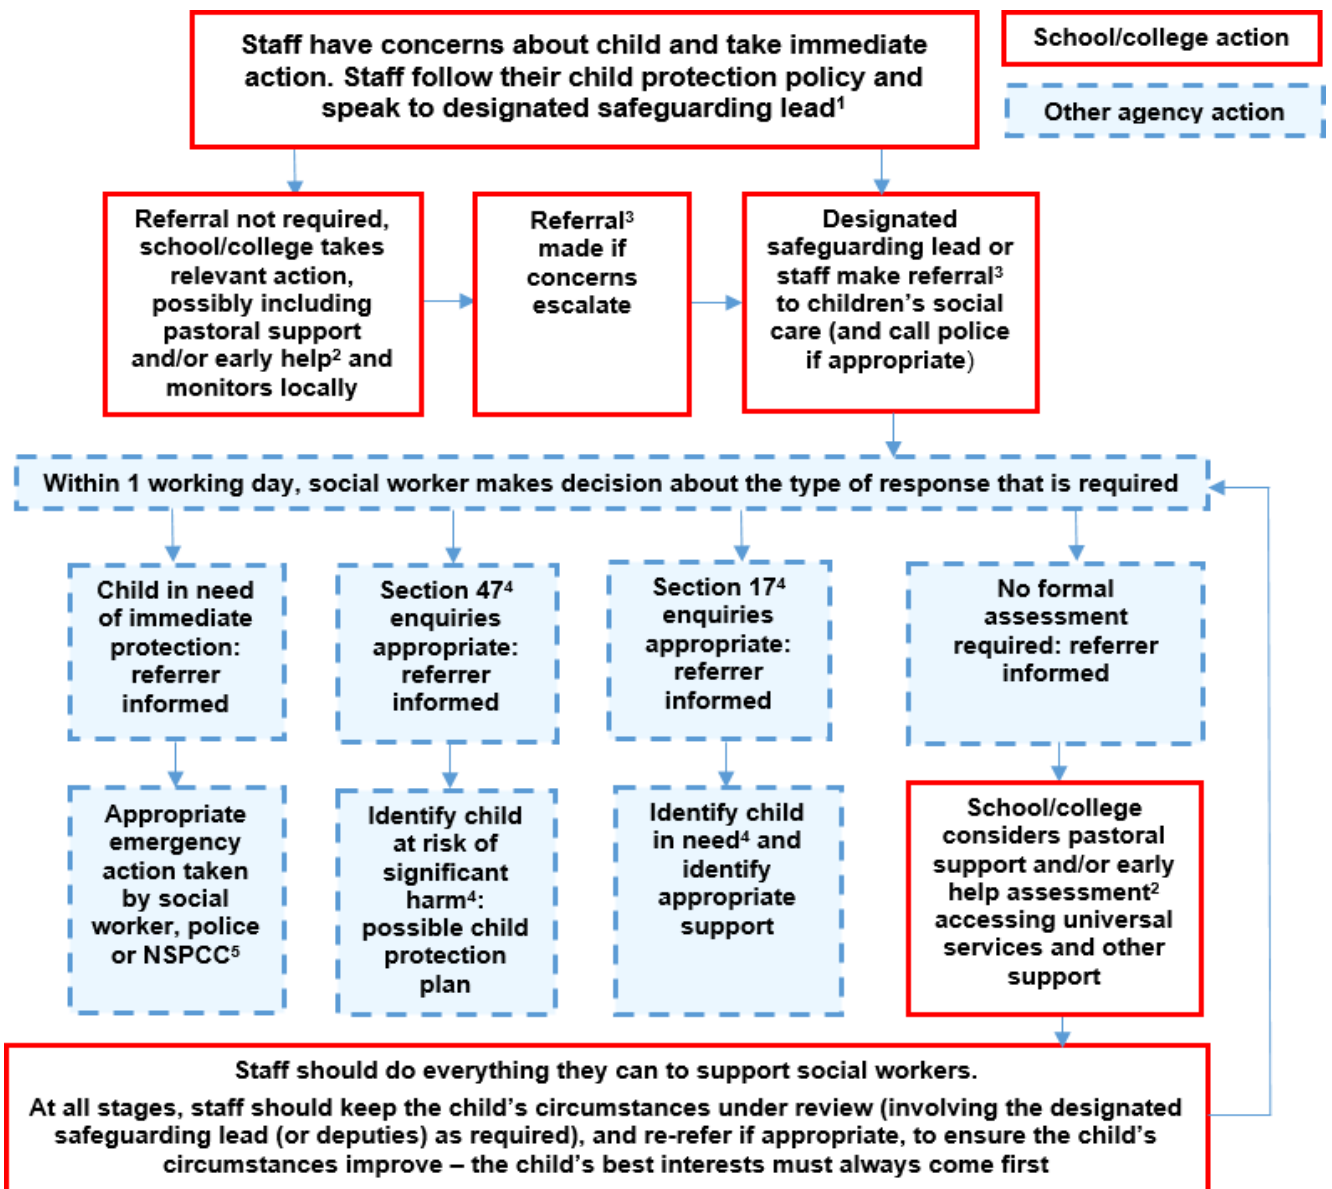

74. Where a staff member feels unable to raise an issue with their employer, or feels that their genuine concerns are not being addressed, other whistleblowing channels are open to them:

- general advice on whistleblowing can be found at [whistleblowing for employees](#)
- the [NSPCC Whistleblowing Advice Line](#) is available as an alternative route for staff who do not feel able to raise concerns regarding child protection failures internally, or have concerns about the way a concern is being handled by their school or college. Staff can call 0800 028 0285 – and the line is available from 08:00 to 20:00 Monday to Friday, and 09:00 to 18:00 at weekends. The email address is help@nspcc.org.uk¹⁹

¹⁹ Alternatively, staff can write to: National Society for the Prevention of Cruelty to Children (NSPCC), Weston House, 42 Curtain, Road, London EC2A 3NH.

A flowchart setting out the actions taken where there are concerns about a child

Figure 1

¹ In cases which also involve a concern or an allegation of abuse against a staff member, see Part four of this guidance.

² Early help means providing support as soon as a problem emerges at any point in a child's life. Where a child would benefit from co-ordinated early help, an early help inter-agency assessment should be arranged. [Working Together to Safeguard Children](#) provides detailed guidance on the early help process.

³ Referrals should follow the process set out in the local threshold document and local protocol for assessment. See [Working Together to Safeguard Children](#).

⁴ Under the Children Act 1989, local authorities are required to provide services for children in need for the purposes of safeguarding and promoting their welfare. Children in need may be assessed under section 17 of the Children Act 1989. Under section 47 of the Children Act 1989, where a local authority has reasonable cause to suspect that a child is suffering or likely to suffer significant harm, it has a duty to make enquiries to decide whether to take action to safeguard or promote the child's welfare. Full details are in [Working Together to Safeguard Children](#).

⁵ This could include applying for an Emergency Protection Order (EPO).

APPENDIX B: REPORT OF A CONCERN FORM

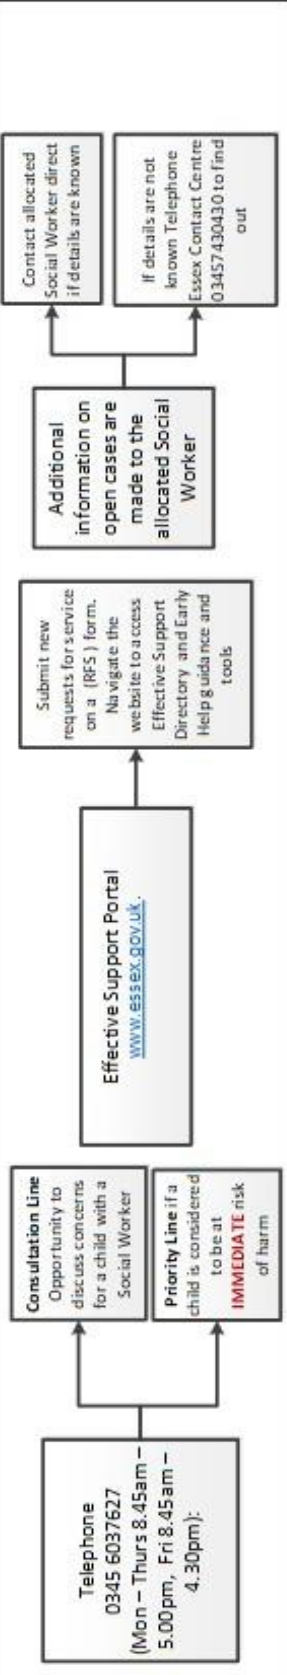

**URSULINE PREPARATORY SCHOOL
CHILD PROTECTION RECORD
REPORT OF A CONCERN**

Your Name:		Your Role:	
Child Name:			
Date of birth:		Year Group / class:

Appendix D: Essex Windscreen of Need and levels of intervention

The Effective Support Windscreen

All partners working with children, young people and their families will offer support as soon as we are aware of any additional needs. We will always seek to work together to provide support to children, young people and their families at the lowest level possible in accordance with their needs.

Children with **Additional** needs are best supported by those who already work with them, such as Family Hubs or schools, organising additional support with local partners as needed. When an agency is supporting these children, an Early Help Plan and a Lead Professional are helpful to share information and co-ordinate work alongside the child and family.

For children whose needs are **Intensive**, a coordinated multi-disciplinary approach is usually best, involving either an Early Help Plan or a Shared Family Assessment (SFA), with a Lead Professional to work closely with the child and family to ensure they receive all the support they require. Examples of intensive services are children's mental health services and Family Solutions.

Specialist services are where the needs of the child are so great that statutory and/or specialist intervention is required to keep them safe or to ensure their continued development. Examples of specialist services are Children's Social Care or Youth Offending Service. By working together effectively with children that have additional needs and by providing coordinated multi-disciplinary/agency support and services for those with intensive needs, we seek to prevent more children and young people requiring statutory interventions and reactive specialist services.

Annex C: Role of the designated safeguarding lead

Governing bodies and proprietors should ensure an appropriate **senior member** of staff, from the school or college **leadership team**, is appointed to the role of designated safeguarding lead. The designated safeguarding lead should take **lead responsibility** for safeguarding and child protection (including online safety and understanding the filtering and monitoring systems and processes in place). This should be explicit in the role holder's job description.

The designated safeguarding lead should have the appropriate status and authority within the school or college to carry out the duties of the post. The role of the designated safeguarding lead carries a significant level of responsibility, and they should be given the additional time, funding, training, resources and support they need to carry out the role effectively. Their additional responsibilities include providing advice and support to other staff on child welfare, safeguarding and child protection matters, taking part in strategy discussions and inter-agency meetings, and/or supporting other staff to do so, and contributing to the assessment of children.

Deputy designated safeguarding leads

It is a matter for individual schools and colleges as to whether they choose to have one or more deputy designated safeguarding leads. Any deputies should be trained to the same standard as the designated safeguarding lead and the role should be explicit in their job description. Whilst the activities of the designated safeguarding lead can be delegated to appropriately trained deputies, the ultimate lead responsibility for child protection, as set out above, remains with the designated safeguarding lead, this lead responsibility should not be delegated.

Availability

During term time the designated safeguarding lead (or a deputy) should always be available (during school or college hours) for staff in the school or college to discuss any safeguarding concerns. Whilst generally speaking the designated safeguarding lead (or a deputy) would be expected to be available in person, it is a matter for individual schools and colleges, working with the designated safeguarding lead, to define what "available" means and whether in exceptional circumstances availability via phone and or Skype or other such media is acceptable. It is a matter for individual schools and colleges and the designated safeguarding lead to arrange adequate and appropriate cover arrangements for any out of hours/out of term activities.

Manage referrals

The designated safeguarding lead is expected to refer cases:

- of suspected abuse and neglect to the local authority children's social care as required and support staff who make referrals to local authority children's social care
- to the Channel programme where there is a radicalisation concern as required and support staff who make referrals to the Channel programme
- where a person is dismissed or left due to risk/harm to a child to the Disclosure and Barring Service as required, and
- where a crime may have been committed to the Police as required. [NPCC - When to call the police](#) should help understand when to consider calling the police and what to expect when working with the police

Working with others

The designated safeguarding lead is expected to:

- act as a source of support, advice and expertise for all staff
- act as a point of contact with the safeguarding partners
- liaise with the headteacher or principal to inform him or her of issues- especially ongoing enquiries under section 47 of the Children Act 1989 and police investigations. This should include being aware of the requirement for children to have an Appropriate Adult. Further information can be found in the Statutory guidance - [PACE Code C 2019](#).
- as required, liaise with the "case manager" (as per Part four) and the local authority designated officer(s) (LADO) for child protection concerns in cases which concern a staff member
- liaise with staff (especially teachers, pastoral support staff, school nurses, IT technicians, senior mental health leads and special educational needs co-ordinators (SENCOs), or the named person with oversight for SEND in a college and senior mental health leads) on matters of safety and safeguarding and welfare (including online and digital safety) and when deciding whether to make a referral by liaising with relevant agencies so that children's needs are considered holistically
- liaise with the senior mental health lead and, where available, the mental health support team, where safeguarding concerns are linked to mental health

- promote supportive engagement with parents and/or carers in safeguarding and promoting the welfare of children, including where families may be facing challenging circumstances
- work with the headteacher and relevant strategic leads, taking lead responsibility for promoting educational outcomes by knowing the welfare, safeguarding and child protection issues that children in need are experiencing, or have experienced, and identifying the impact that these issues might be having on children's attendance, engagement and achievement at school or college.¹⁵⁶ This includes:
 - ensuring that the school or college knows who its cohort of children who have or have had a social worker are, understanding their academic progress and attainment, and maintaining a culture of high aspirations for this cohort, and
 - supporting teaching staff to provide additional academic support or reasonable adjustments to help children who have or have had a social worker reach their potential, recognising that even when statutory social care intervention has ended, there is still a lasting impact on children's educational outcomes

Information sharing and managing the child protection file

The designated safeguarding lead is responsible for ensuring that child protection files are kept up to date.

Information should be kept confidential and stored securely. It is good practice to keep concerns and referrals in a separate child protection file for each child.

Records should include:

- a clear and comprehensive summary of the concern
- details of how the concern was followed up and resolved
- a note of any action taken, decisions reached and the outcome

¹⁵⁶ We recognise that in some settings there may be a different strategic lead for promoting the educational outcomes of children who have or have had a social worker, particularly in larger schools or colleges. Where this is the case, it is important that the DSL works closely with the lead to provide strategic oversight for the outcomes of these children and young people.

They should ensure the file is only accessed by those who need to see it and where the file or content within is shared, this happens in line with information sharing advice set out in Parts one and two of this guidance.

Where children leave the school or college (including in year transfers) the designated safeguarding lead should ensure their child protection file is transferred to the new school or college as soon as possible, and within 5 days for an in-year transfer or within the first 5 days of the start of a new term. This should be transferred separately from the main pupil file, ensuring secure transit, and confirmation of receipt should be obtained. Receiving schools and colleges should ensure key staff such as designated safeguarding leads and special educational needs co-ordinators (SENCOs) or the named person with oversight for SEND in colleges, are aware as required.

Lack of information about their circumstances can impact on the child's safety, welfare and educational outcomes. In addition to the child protection file, the designated safeguarding lead should also consider if it would be appropriate to share any additional information with the new school or college in advance of a child leaving to help them put in place the right support to safeguard this child and to help the child thrive in the school or college. For example, information that would allow the new school or college to continue supporting children who have had a social worker and been victims of abuse and have that support in place for when the child arrives.

Raising awareness

The designated safeguarding lead should:

- ensure each member of staff has access to, and understands, the school or college's child protection policy and procedures, especially new and part-time staff
- ensure the school or college's child protection policy is reviewed annually (as a minimum) and the procedures and implementation are updated and reviewed regularly, and work with governing bodies or proprietors regarding this
- ensure the child protection policy is available publicly and parents know that referrals about suspected abuse or neglect may be made and the role of the school or college in this
- link with the safeguarding partner arrangements to make sure staff are aware of any training opportunities and the latest local policies on local safeguarding arrangements
- help promote educational outcomes by sharing information about welfare, safeguarding and child protection issues that children who have or have had a social worker are experiencing with teachers and school and college leadership staff

Training, knowledge and skills

The designated safeguarding lead (and any deputies) should undergo training to provide them with the knowledge and skills required to carry out the role. This training should be updated at least every two years. The designated safeguarding lead (and any deputies) should also undertake Prevent awareness training. Training should provide designated safeguarding leads with a good understanding of their own role, how to identify, understand and respond to specific needs that can increase the vulnerability of children, as well as specific harms that can put children at risk, and the processes, procedures and responsibilities of other agencies, particularly local authority children's social care, so they:

- understand the assessment process for providing early help and statutory intervention, including local criteria for action and local authority children's social care referral arrangements¹⁵⁷
- have a working knowledge of how local authorities conduct a child protection case conference and a child protection review conference and be able to attend and contribute to these effectively when required to do so
- understand the importance of the role the designated safeguarding lead has in providing information and support to local authority children social care in order to safeguard and promote the welfare of children
- understand the lasting impact that adversity and trauma can have, including on children's behaviour, mental health and wellbeing, and what is needed in responding to this in promoting educational outcomes
- are alert to the specific needs of children in need, those with special educational needs and disabilities (SEND), those with relevant health conditions and young carers¹⁵⁸
- understand the importance of information sharing, both within the school and college, and with the safeguarding partners, other agencies, organisations and practitioners
- understand and support the school or college with regards to the requirements of the Prevent duty and are able to provide advice and support to staff on protecting children from the risk of radicalisation

¹⁵⁷ Full details in Chapter one of [Working Together to Safeguard Children](#).

¹⁵⁸ Section 17(10) Children Act 1989: those unlikely to achieve a reasonable standard of health and development without local authority services, those whose health and development is likely to be significantly impaired without the provision of such services, or disabled children.

- are able to understand the unique risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online at school or college
- can recognise the additional risks that children with special educational needs and disabilities (SEND) face online, for example, from bullying, grooming and radicalisation and are confident they have the capability to support children with SEND to stay safe online
- obtain access to resources and attend any relevant or refresher training courses,
- encourage a culture of listening to children and taking account of their wishes and feelings, among all staff, and in any measures the school or college may put in place to protect them.

In addition to the formal training set out above, their knowledge and skills should be refreshed (this might be via e-bulletins, meeting other designated safeguarding leads, or simply taking time to read and digest safeguarding developments) at regular intervals, as required, and at least annually, to allow them to understand and keep up with any developments relevant to their role.

Providing support to staff

Training should support the designated safeguarding lead in developing expertise, so they can support and advise staff and help them feel confident on welfare, safeguarding and child protection matters. This includes specifically to:

- ensure that staff are supported during the referrals processes, and
- support staff to consider how safeguarding, welfare and educational outcomes are linked, including to inform the provision of academic and pastoral support.

Understanding the views of children

It is important that all children feel heard and understood. Therefore, designated safeguarding leads (and deputies) should be supported in developing knowledge and skills to:

- encourage a culture of listening to children and taking account of their wishes and feelings, among all staff, and in any measures the school or college may put in place to protect them, and,
- understand the difficulties that children may have in approaching staff about their circumstances and consider how to build trusted relationships which facilitate communication.

Holding and sharing information

The critical importance of recording, holding, using and sharing information effectively is set out in Parts one, two and five of this document, and therefore the designated safeguarding lead should be equipped to:

- understand the importance of information sharing, both within the school and college, and with other schools and colleges on transfer including in-year and between primary and secondary education, and with the safeguarding partners, other agencies, organisations and practitioners
- understand relevant data protection legislation and regulations, especially the Data Protection Act 2018 and the UK General Data Protection Regulation (UK GDPR), and
- be able to keep detailed, accurate, secure written records of all concerns, discussions and decisions made including the rationale for those decisions. This should include instances where referrals were or were not made to another agency such as LA children's social care or the Prevent program etc.

Appendix F: Missing Child Protocol – arrangements for children who have missing episodes

Definition

The definition of missing used in Essex is *‘anyone whose whereabouts cannot be established will be considered as missing until located and his or her well-being confirmed’*

(College of Policing Authorised Professional Practice Guidance).

Introduction

A child going missing could be a ‘one-off’ incident that, following investigation, does not need further work. However, multiple episodes of children who go missing can be an indicator of wider concerns (for example: exploitation, difficult home lives or poor mental health).

This guidance sets out the procedures to follow when children go missing from schools and other education settings, hereafter referred to as education settings. Missing children are among the most vulnerable in our community. Sometimes children go missing from education settings. When this occurs, it is important that action is taken quickly to address this, and in line with local procedures. This document should be read in conjunction with the education setting’s Child Protection Policy, and the Southend, Essex and Thurrock Child Protection Procedures (SET Procedures).

- [Essex Schools Infolink](#) – for the model Child Protection Policy and other resources
- [Essex Safeguarding Children Board](#) – for the SET Procedures and other resources

Education settings should consider missing episodes like any other child protection concern and take action as appropriate. This may include contacting parents/carers, the Children & Families Hub (CFH) consultation line or, in an emergency, the CFH priority line and / or the police. It may be appropriate to use the Early Help Procedures (including holding a Team Around the Family meeting) to identify underlying reasons for the missing episodes, address the issues and prevent escalation. Advice should be sought from appropriate partners, and concerns should be escalated if there is no improvement.

Education setting staff may be asked to attend strategy meetings for a missing child and should prioritise attendance at these meetings. Where children missing frequently are open to Children’s Social Care, a Missing Prevention Plan may be in place. Where this is the case, the education setting may be set actions as part of the Missing Prevention Plan and should receive a copy if consent has been provided.

When a child goes missing

When it is suspected that a child is missing from an education setting, this must be addressed immediately. Active steps to locate the child should be taken, for example, searching the premises and surrounding areas, attempting contact with the child by phone, text and social media, and contacting their parents/carers. If none of these actions locate the child, they must be reported missing to the Police by dialling 101, **or 999 if there is a belief that the child is immediately suffering significant harm.** It is important that the police are informed of any

checks already completed as it may save time and prevent duplication of tasks set by the police to locate a child.

Education setting staff must inform the child's parents/carers that the child has been reported missing. Where the child has a Social Worker, they should also be informed. After a child has been reported missing, any further information should be communicated to the police by telephoning 101 and quoting the incident number that the police would have provided following the initial report. Further information must be passed to the police as soon as possible, as officers will continue to search for the child until informed of their return.

When the child is found

If the child is found by education setting staff, or if the child returns to the premises of their own accord, the police must be notified immediately by dialling 101 or 999 if the matter is an emergency. It is important that this action is prioritised, as the child will remain classified as a missing person until seen by the police.

Essex Police

On receiving a report of a missing child, Essex Police will classify the child as missing and will respond based on the level of risk involved.

Essex Police will conduct a vulnerability interview for all children who have been missing and have returned. It may be that the child refuses to engage or speak with police. On these occasions the parents/carers can assist by reporting to officers their observations on the child's return, e.g. did the child shower, have gifts, appear unwell or under the influence of any substance etc. The setting may also be able to contribute to this process and should provide the police with any relevant information or observations.

Missing Chats

Each child that returns from missing will be offered a 'missing chat' (an independent return from missing interview) by a person not involved in their care. This will be facilitated by the Local Authority with responsibility for the child. Missing chats are offered to all children from Essex who go missing.
